There are hundreds of events scheduled around the globe! Join other CAW women on Tuesday, March 8 to reflect on our achievements as women and look to the future!!

1908

Great unrest and critical debate was occurring amongst women. Women's oppression and inequality was spurring women to become more vocal and active in campaigning for change. In 1908, 15,000 women marched through New York City demanding shorter hours, better pay and voting rights.

2011

Great improvements have been made. This day is a statutory holiday in some countries! We do have female astronauts and prime ministers, women can go to university, women

can work and have a family, women have real choices. And so the tone and nature of IWD has, for the past few years, moved from being a reminder about the negatives to a celebration of the positives. So make a difference, think globally and act locally!! Make everyday International Women's Day. Do your bit to ensure that the future for women is bright, equal, safe and rewarding!

This is a once in our lifetime opportunity!

Join us as we celebrate the 100th Anniversary of International Women's Day!
